INVESTMENT

$ 500 One time breakfast partnership

WIN's reputation of delivering nationally recognized speakers for 51 years remains a priority for our organization. WIN members have access to an open forum unlike anything else in the region. We offer a number of events where you can mix with influential people from other industries and learn about some of the most important issues affecting our region and the world. This open exchange of ideas between our members has resulted in positive changes in our community. It's a WIN-WIN for business owners, employees and employers.

We're a diverse group made up of business leaders, involved citizens and community leaders from around northern Nevada. We come together to network, share knowledge, get new ideas and seek out opportunities to change our region in a positive way.
